

Barrier Shrink Bags Market is projected to expand at a CAGR of 5.7% from 2022 to 2027

Barrier Shrink Bags Market – Analysis, Outlook, Growth Trends, and Forecast

DUBAI, DUBAI, UNITED ARAB EMIRATES, February 22, 2022

/EINPresswire.com/ -- Increasing hygiene awareness and advanced packaging technologies play a key role in growth of the [barrier shrink bags market](#). Barrier shrink bags reduce chances of package failure and provide extra barriers for moisture, ensuring retention of aroma, and reduction of spoilage.

Barrier shrink bags are thus an excellent packaging solution for protecting fresh meats from contamination and spoilage throughout the distribution channel. On the back of these factors, the global barrier shrink bags market is expected to exhibit a CAGR of 5.7% by value, during the forecast period of 2022-2027.

Key Takeaways of Barrier Shrink Bags Market Study

As per FMI analysis, high barrier films are highly preferred for food packaging, and this segment is expected to create substantial incremental revenue opportunity during 2022-2027, as it ensures tear resistance of the packages and shelf life of the food product without spillage.

The meat packaging segment is expected to hold a significant share of the barrier shrink bags market. This is attributable high moisture and oxygen barrier provided by these bags that ensures hygiene and longer life of meat products.

Side sealed bags are expected to gain significant traction, on the back of high aroma barrier and high bi-directional shrinkage quality, which gives good presentation looks to the package.

Higher thickness of barrier shrink bags provides extra resistance for bacteria and contamination. On the other side low thickness barrier shrink bags are easy to tear and give transparent presentation of the product. End users prefer 50 to 70 Micron thickness bags for food packaging.

High abuse strength segment is expected to contribute significantly to the growth of the barrier shrink bags market.

North America is identified the leading market for barrier shrink bags at global level. However, expansion of food industries in Asian countries is expected to offer substantial opportunities for players in the barrier shrink bags market during the forecast period.

“Key players in the global barrier shrink bags market can gain significant profits by focusing on enhancing market presence in untapped and developing countries such as China and India, attributable to expansion of food industries and hygiene awareness in this region,” says an FMI analyst.
