

# Decision Intelligence Market Is Booming Across the Globe, Explored Latest Report, Top Key Players and Outlook 2030

*Decision Intelligence Market Size – USD 10.30 Billion in 2020, Market Growth – at a CAGR of 13.7%, Market Trends – Increasing need for data-driven decisions*

VANCOUVER, BC, CANADA, February 22, 2022 /EINPresswire.com/ -- The Global [Decision Intelligence market](#) size reached USD 10.30 Billion in 2020 and is expected to register a revenue CAGR of 13.7% during the forecast period, according to latest analysis by Emergen Research.

Increasing need to make fast and accurate decisions for better outcomes and increasing need for multiple problem-solving options are expected to support market revenue growth between 2021 and 2030. In addition, increasing need for making more accurate data-driven decisions will boost revenue growth of the market. Effective decision making is a major problem in organizations, and better decision making and evaluating tools to make business-critical decisions are required to resolve challenges. Decision intelligence solution helps organizations to achieve better decisions, accommodate uncertainty factors, and improve their respective decision models.

The latest market intelligence study on the Decision Intelligence market covers the performance of both the key vendors and new entrants for the forecast period, 2021 - 2030. Estimated value, profits, gross margin, spending power and consumption volume form an important part of the study that aims at offering the business owners, stakeholders, and marketing personnel a competitive edge over others. Importantly, the study discusses a lot about, the product application, classification and performance across different regions. The industry assessment report weighs upon the top performers and also the winning strategies that have enabled them to occupy a strong foothold in the Decision Intelligence market.
