

HTA Announces New Subcontract with The National Historically Black Colleges & University Alumni Association Foundation

DISTRICT OF COLUMBIA, WASHINGTON, DC, UNITED STATES, February 22, 2022

/EINPresswire.com/ -- [HTA Technology Security Consulting](#) (HTA) and The National Historically Black Colleges & Universities Alumni Associations Foundation ([NHBCUAAF](#)) are pleased to announce a new "HBCU Cybersecurity Cohort Pipeline Program" partnership. This collaboration

HTA Technology Security Consulting and The National Historically Black Colleges & Universities Alumni Associations Foundation announce a new HBCU Cybersecurity Cohort Pipeline Program partnership."

Michelle Chaudry

assists the nation's historically Black colleges and universities with their Cybersecurity workforce development challenges and provides student engagement pathways for education and employment.

With a severe shortage of industry and federal Cybersecurity talent and when students face the pandemics of covid and historical challenges of social injustice, the importance of student engagement must be reaffirmed as an essential element of higher education. Students need the knowledge and skills to support employment tenets fundamental to their future career growth and development.

This multi-year partnership will focus on strengthening and integrating programs and activities around students who are graduating in Cybersecurity and are interested in working in the federally cleared world of government upon leaving the university. We intend to secure corporate hiring relationships and disseminate employment opportunities to connect meaningful employment in the Cybersecurity discipline after graduation. The goal is to mobilize students at HBCU engineering schools who will benefit from an HBCU Cybersecurity Cohort Pipeline Program that aligns with industry and government workforce development challenges and their respective diversity & inclusion commitment.

"We are extremely excited to work with NHBCUAAF in bringing together inclusive and diverse ideas and voices that breed creativity and innovation to promote and affirm the power of student engagement," said Michelle Chaudry, President & CEO of HTA. Tyrone Couey, President, NHBCUAAF, added, "This partnership will have an enormous impact on the lives of young men and women at HBCUs who too often face nearly insurmountable barriers to securing meaningful

employment in their respective academic disciplines.”
