Chlorophyll Water® is a plant-powered purified mountain spring water enhanced with the addition of Chlorophyll, a key ingredient and the distinct green pigment in plant life. Chlorophyll Water® is a refreshing introduction to the many benefits of chlorophyll and is fortified with the added benefits of vitamins A, B12, C, and D for enhanced hydration.

Chlorophyll Water® [ <https://ChlorophyllWater.com/> ] is bottled at the mountain source, a preserved natural resource protected from the elements by a 1,500-acre forest. The purified mountain spring water in Chlorophyll Water® is then distilled and refined through a three-part purification process, which is triple filtered (including carbon filtration), and then UV treated for purity and quality. Each bottle of Chlorophyll Water® is then fortified with essential vitamins.
