

Sanbo Chemical Industry joins BuyChemJapan

Sanbo Chemical Industry has entered into a product promotion partnership with BuyChemJapan, to promote their products online.

OSAKA CITY, OSAKA, JAPAN, February 24, 2022 /EINPresswire.com/ -- [BuyChemJapan Corporation](#) (CEO: Masa Oguchi) is pleased to announce that Sanbo Chemical Industry (President: Kazumi Ogaki) has joined the growing number of Japanese chemical manufacturers who make up the roster of companies promoting their high quality products on the online B2B chemical marketplace [BuyChemJapan.com](#).

Sanbo Chemical Industry Co., Ltd. (Sanpo Chemical Research Institute Co., Ltd. was established in 1950 and today demonstrates its presence in the market as a technology development company that supports modern, cutting-edge technology. Having started out by domestically producing naphthol dyes, Sanbo has branched out into producing the raw materials for semiconductor photoresists, organic compound synthesis technology and photosensitive materials, with a focus on the fields of functional display materials and pharmaceutical raw materials used in optical materials.

Under this new agreement, buyers around the world can connect with Sanbo and its products through BuyChemJapan.

BuyChemJapan is a start-up spun operating under the umbrella of BCJ, a trading company specializing in chemicals. With a deep understanding of the needs and business practices of both domestic and foreign manufacturers and buyers within the chemical industry, BuyChemJapan can actively promote Japanese competitive chemicals to overseas buyers through its well-received free online marketplace, which specializes in introducing chemical products and promoting brand recognition. In a marketplace shaped by the COVID-19 pandemic, companies can no longer carry out traditional sales activities, so the time to shift to digital, online activities has come.

The marketplace has been designed from the ground up to help simplify the process of introducing the demands of buyers to leading Japanese chemical manufacturers.

Buyers can...

Search for the required chemical via a comprehensive set of options and definitions.

Make direct contact with the manufacturer with one click; there is no need to deal with intermediaries.

Request a sample, price quotation or make an order directly from the manufacturer.

Make a fully informed purchasing decision through use of a function which allows for direct comparison of chemical qualities and manufacturers costs (in development).

Buy with complete confidence as the marketplace is only partnered with manufacturers who produce chemicals at their own factories.

Any business currently being undertaken can be re-routed through BuyChemJapan, benefiting from the additional transparency and convenience the service provides.

BuyChemJapan is actively searching for and partnering with a rising number of chemical manufacturers. If you are an international chemical buyer who wants to negotiate directly with Japanese chemical manufacturers rather than go through troublesome, and expensive, intermediaries, then this is the service for you! BuyChemJapan.com is online now and you can open up a free account by going to BuyChemJapan.com and following the sign-up process - a video which explains how to sign-up [can be found here](#). If you are an international chemical buyer who wants to negotiate directly with Japanese chemical manufacturers rather than go through troublesome, and expensive, intermediaries, then this is the service for you!
