Bianca is a third-generation Chinese/Indian of a diverse population of Suriname, South America, and a mother of three. She is also a co-owner of a flower export company and farm in Suriname for more than 20 years. "To be able to say that I'm from Suriname, the most forested country of the world" makes the Bella Fleur co-founder very proud. Even more proud by mentioning, that the signature reusable Lakewood boxes, used in Bella Fleur, have their origin from a sunken forest in Surinam.

The idea of collaboration between "Bella Fleur" and "Mystique" was inspired through the love of nature by both business owners - Bianca Rewat and Nadiya Albishchenko.

Nadiya is an owner of a successful trading business INAS EXIM LLC running a global food trading company having vast international trading experience of over 20 years. Mothering 2 kids, grown up on the beaches of the Black Sea has always carried in her heart the love towards the Oceans seeing the same affection in her children she created "Mystique" - An Art created by 100% recyclable, bio-degradable, ocean-friendly material, that not only energizes your thoughts, but the very fauna of each material used in it helps the surroundings to create positive energy. At the moment Nadiya exhibiting her arts at Shangri-la Dubai Hotel starting from the beginning of February till the end of March expressing her support towards wildlife under the water and on the land and the importance of endangered species protection.

Nadiya and Bianca are in discussion for more projects in the nearest future to express their passions into the creation of mutual gifting concepts which would be an exciting combination - A Gift of Nature, for Nature Lovers and Admirers. A priceless combination with a Nobel cause.
