About Barneys Farm

It was the late 1980s and a small group of breeders began to cross-breed marijuana strains carefully selected from every corner of the Middle East and Asia. One member of this talented group would go on to create one of the most prominent cannabis seed production businesses in the world. That business is Barney's Farm and the man who started it all is Derry.

Barneys Farm seeds complement other European farms' collections on Green Nexus like Soma Seeds and Cannabis Cup Award winner Green House Seeds. In the coming months, Green Nexus are looking to add even more European brands to make it easy for American home cultivators to buy Dutch Cannabis seeds.
