

Must High-Tech Expo announces Smart Home Day event to explore the Smart Home technology Trends and Innovations in 2022.

We organize Smart Home Day event to bring together professionals, designers, engineers, innovators, influencers, addicts, from across the Smart Home ecosystem.

PARIS, ÎLE-DE-FRANCE, FRANCE, March 1, 2022 /EINPresswire.com/ -- The Smart Home and building technology has become popular and mature nowadays. It is more likely to be fully « digital » and remotely controlled via internet. The emerging demand of low-

cost sensors and wireless technologies in smart home are drastically changing the indoor environments, where we work and live, enabling higher levels of efficiency, energy saving, comfort and safety. In addition, the pandemic situation, accelerated partially the trend. Given the

“

We offer a DBE (Digital Business Ecosystem), to accompany companies in their digital transformation and in their business development, for better outcome and new digital customer experiences.”

said Hanène Maupas, Must CEO.

many common use cases between a smart home and smart building including climate control, lighting automation or security and fire safety.

In this conference we will deep dive and explore the latest trends and innovations, from the Latest Technology Trends with focus on Connectivity, Biometrics and Security to the Latest [Smart Home Devices and Services Trends](#), providing the participants with a good overview of the state of the art in term of technology, as well as the market.

Among the speakers, you will meet technology leaders of the Smart Home industry as well as most recognized

startups with disruptive technologies.
