

Supply Chain Crisis creates a better product

21 million + users will be thrilled

BROOKSVILLE, FLORIDA, UNITED STATES, March 1, 2022 /EINPresswire.com/ -- 27 years ago [Zymöl](#) launched Cleaner Wax. The first 'real' Cleaner and Wax combination not based on petrol solvents. Because of petrol-solvent limitations, cleaning and waxing products have had a history of either cleaning or waxing but not doing both very well. The number one consumer watchdog rated [Zymöl Cleaner Wax](#) exceptional at both tasks.

The [Supply Chain Crisis](#) left Zymöl unable to obtain historical ingredients.

The supply chain crisis hurts everyone, but it sent Zymöl down the path of enhancing products with the addition of an Ultra Microscopic SiO₂ polishing agent. Zymöl Cleaner Wax is now blended with heavy nano Carnauba and thick essence oils to impart a bonded high gloss wax that protects the finish, all while removing minor paint blemishes and hairline scratches.

2022 Zymol Cleaner Wax

"After a year of tedious sourcing, reformulation, formula testing and stability assurance, Zymöl Cleaner Wax now applies easier, cleans better and feels like glass with a longer lasting brilliant shine" says Laura Robinson President of Zymöl. Robinson added "Simply paint restoration in a bottle".

“

Zymöl Cleaner Wax now applies easier, cleans better and feels like glass with a longer lasting brilliant shine”

Laura Robinson

Zymöl continues to change the world's expectations of superior results, customer care and customer satisfaction at Retail with Natural and Organically derived surface care

products sought after by the owners of the most prized possessions.
