The growing use of sodium and calcium caseinate as an intermediate in the pharmaceutical industry is projected to drive the market demand in the forecast period. These are non-toxic, inexpensive, and highly stable chemicals. Sodium caseinate, owing to its physicochemical and structural properties, provides beneficial functionalities as drug delivery vehicles. Also, it is used in pharmaceutical formulations for the re-mineralization of carious lesions in dental enamel.

According to a survey, sodium caseinate has the highest reported maximum concentration of use, and it is used at around 96.9% in bath oils, salts, and tablets.

Latin America and Middle East & Africa are projected to open a window of opportunities for the growth of the market in the upcoming years. The growing demand for sodium & calcium caseinates in Latin America is projected to be mostly driven by the expansion of the food & beverage industry.

Market Dynamics

The global chemicals and materials have a wide range of application areas such as crop protection, animal nutrition, dietary supplements, preservatives, flame retardants, surface ingredients, active pharmaceutical ingredients, and matting agents among others. Population explosion along with rapid economic growth is expected to propel market growth. Moreover, the growing urbanization, rapid industrialization, and high investment in infrastructure development create market demand over the forecast period.

Key participants include AMCO Proteins, Erie Foods International Inc., Nutra Food Ingredients LLC, Farbest Brands, Fonterra Cooperative Group, American casein Company, Israel Chemicals Limited, Lactoprot Deutschland GmbH, Milk Specialties Co., and Foodchem International Corporation, among others.
