

Anblicks to host Tech Meetup in Ahmedabad to discuss on Emerging Architectures for Modern Data Infrastructure & Insights

Anblicks announced an interactive tech session on Cloud Data Analytics where attendees will get a chance to learn about Modern Data Infrastructure & Insights.

AHMEDABAD, GUJARAT, INDIA, March 2, 2022 /EINPresswire.com/ -- Today, many companies are building systems

to manage data and to enable data-driven decision-making. They range from the pipes that carry data to storage solutions that house data, to SQL engines that analyze data, to dashboards that make data easy to understand – from data science and machine learning libraries, to automated data pipelines, to data catalogs, and beyond.

“

It's a good opportunity for data architects, data engineers, DevOps engineers and data scientists in Ahmedabad, India, to meet up and discuss modern architectures for building scalable data solutions.”

Munwar Shariff, Chief Technology Officer at Anblicks

Anblicks is hosting an interactive technology Meetup to discuss various emerging architectures for managing [Modern Data Infrastructure](#).

“It's a good opportunity for data architects, data engineers, DevOps engineers, and data scientists in Ahmedabad, India, to meetup and discuss modern architectures for building scalable data solutions” quoted Munwar Shariff, Chief Technology Officer at Anblicks.
