The electric engine based load haul dump truck segment is projected to exhibit the highest CAGR in the forecast period. This growth is attributed to advantages such as zero exhaust emissions, less initial cost, less maintenance cost, and long lifespan. Anchises Technologies Co., Ltd, Caterpillar Inc., and GHH Fahrzeuge are some of the electric load haul dump trucks manufacturing companies. Furthermore, stringent regulations by governments of various countries for reduction of vehicle gas emission have also accelerated demand for electric engines in the global load haul dump truck market. For instance, in 2016, the Indian Ministry of Road Transport and Highways have issued a notification of Bharat Stage (BS) VI emission standards for all vehicle companies to reduce carbon emission. Similarly, Corporate Average Fuel Economy (CAFE) Standards in the U.S. is propagating adoption of energy-efficient automotive by formulating regulations for reduction of petroleum consumption. It is also focused on reducing greenhouse emissions and promoting development of innovative technologies to increase reliance on renewable and conservation of energy sources.
