According to the report published by the DPO International 2019, the global ice cream market size was valued at US\$ 57.9 billion in 2018 and was expected to reach US\$ 84.9 billion over the next 5 years. Thus, the ingredient manufacturers are intensively focusing on developing and offerings novel products to meet the growing innovative ice cream ingredients market trends such as low-sugar milk fat, lactose free SNF (solid-not-fat), sweeteners, and others.

The rise in disposable incomes of the consumers, increase in standards of living, and their improved spending capacity are few of the factors boosting its per capita consumption of ice creams especially the impulse ice cream. The ingredients used in a huge quantity are milk fat, milk-solid-not-fat, and sweeteners. The manufacturers have strengthened their manufacturing capabilities to meet the global demand. Furthermore, the rising concerns of consumer over health and environment has resulted in the increasing demand for organic ice cream worldwide. The ice cream ingredients market share is expected to increase in global dairy sector during the forecast period, owing to the rising popularity of ice creams in developing economies.

Ice cream ingredients market growth is expected to rise due to increase in the emergence of ice cream manufacturers and their demand for novel formulations. Convenient quick snacks, such as ice cream bars, sandwiches, ice-lollies, cones, cups, and sticks require variants of ice cream ingredients. The demand for high fat ice cream and specialty ice cream have necessitated the ice cream ingredients manufacturers to develop innovating offerings for ice cream in the ideal composition. The rise in the demand for impulse and take-home ice cream is further expected to proliferate the demand for varied ingredients in the global ice cream ingredients market.
