

Ring Main Unit (RMU) Market 2022 | Business Growth Analysis & Key Market Driver By 2029

Ring main unit (RMU) market is driven by high demand for reliable sources of power generation, and development of enhancement plans for power distribution.

PORTLAND, OREGON, UNITED STATES, March 7, 2022 /EINPresswire.com/ -- The global [ring main unit \(RMU\) market](#) is driven by increase in power consumption, modernization of the existing power infrastructure, high demand for reliable sources of power

generation, and development of enhancement plans for power distribution. However, higher cost of RMUs as compared to traditional switchgears restricts the market growth. Furthermore, development of automation ready units with integrated remote terminal units (RTUs) that enable instant smart grid functionality present lucrative opportunities for the market players during the forecast period.

The global ring main unit (RMU) market is segmented based on type, installation, application, and geography. Based on type, it is classified into gas insulated, air insulated, oil insulated, and solid dielectric material. Based on installation, it is divided into outdoor, and indoor. On the basis of application, it is segmented into industrial (wind power plant, compact secondary substations, and distribution utilities), and infrastructure (residential, non-residential, and transportation). Geographically, it is analyzed across North America, Europe, Asia-Pacific, and LAMEA.
