## Home Diagnostics Instruments Market Segmentation by Category

### Test Type

- Glucose Monitoring Devices
- Pregnancy Test
- HIV Test Kits
- Ovulation Predictor Test Kits
- Cholesterol Detection Test Kits
- Drug of Abuse Test Kits
- Others

### Form

- Cassettes
- Strips
- Midstream
- Digital Monitoring
- Instruments
- Test
- Dip Cards

## Regional Market and Country-wise Segmentation

- North America
  - USA
- Latin America
- Europe
  - France
- Asia Pacific

Middle East  
Africa  
China

## Distribution Channel

Retail Pharmacies  
Drug Stores  
Hypermarkets / Supermarkets  
Online Pharmacies

## Key Takeaways from Report

- There has been an increase in the adoption of digital Home Diagnostics Instruments to improve disease diagnosis. Market players have innovatively introduced digital Home Diagnostics Instruments through various technologies aligned with the growth of smartphone users, which makes accessibility easier.
- The industry faces limitations due to compliance of strict laws laid down by regulatory bodies such as the FDA and EU, so as to keep quality and accuracy in check.
- Home Diagnostics Instruments are yet to penetrate developing economies on a large scale.
- Glucose monitoring, pregnancy testing, and infection tests are the most widely used types across the world.
- Urine diagnosis is by far the most widely used sampling method for home diagnostic purposes.
- North America leads as far as demand for home diagnosis is concerned, followed by Europe.

"The COVID-19 pandemic has disrupted several sectors, but has benefitted the Home Diagnostics Instruments market, as people are more inclined to stay indoors and self-test when possible, due to increased risk going to hospitals," says a Fact.MR analyst.

## Collaborative Efforts Top Manufacturers' Priority

Fact.MR finds that, the number of people suffering from hearing loss has encouraged stakeholders in the Home Diagnostics Instruments market to introduce advanced hearing assessment kits.

Leading market players such as Quidel Corporation are setting the bar high. Roche Holding AG partnered with GE Healthcare to deliver data-driven diagnostics, which include tests that critical care patients can use at home. ARKRAY, Inc. is now in an agreement with leading diagnostics manufacturers to deliver diagnostics in the Indian healthcare system.

Some of the key players in the Home Diagnostics Instruments market are ACON Laboratories Inc, BTNX Inc, Assure Tech (Hangzhou) co. Ltd. Becton Dickinson & Company, Bionime Corporation, and True Diagnostics Inc., who are integrating innovative technologies to further improve performance features, such as efficiency and accuracy, to gain a competitive edge in this space.

#### Report Benefits & Key Questions Answered

- What are the key trends in the Home Diagnostics Instruments market?

Advanced cutting-edge technology is driving the market for Home Diagnostics Instruments. Increasing health awareness is pivotal to the growth of the market.

- Which are the top companies operating in home diagnostic industry?

Leading players in the Home Diagnostics Instruments market are Bionime Corporation, Roche Holding AG, Abbott Laboratories, ACON Laboratories Inc., BTNX Inc., Becton Dickinson & Company, and Bionime Corporation.

- What are the key challenges witnessed by market players in Home Diagnostics Instruments market?

The biggest challenge or restraint issued is stringent adherence to rules laid down by regulatory. This potentially increases the manufacturing cost of all products, and is a deterrent to new entrants and emerging firms.

- Based on application, which segment is likely to witness a surge in Home Diagnostics Instruments market?

Infections or test kits that can detect underlying conditions of infections are showing signs of growth under the application segment in the market.

- What are the risks of investing in the Home Diagnostics Instruments markets in developing countries?

Developing countries pose investment risks as they do not have the budget to include Home Diagnostics Instruments kits in their healthcare funds. These are low-income countries where people cannot afford better healthcare, even though WHO has suggested home diagnostics
