

Survival Tools Market to Garner \$2,481.6 million, Globally, by 2030 at 7.1% CAGR: Allied Market Research

The sale of survival tools was hampered globally, as the outbreak of covid 19 has led to closure of tourism industry, retail stores and others

PORTLAND, 5933 NE WIN SIVERS DRIVE, #205, OR 97220, UNITED STATE, March 7, 2022 /EINPresswire.com/ -- According to a new report published by Allied Market Research, titled, "[Survival Tools Market](#)" by Product Type, Application, and Distribution Channel: Global Opportunity Analysis and Industry Forecast, 2021–2030," the

global survival tools market size was valued at \$1,279.6 million in 2020, and is projected to reach \$2,481.6 million by 2030, registering a CAGR of 7.1% from 2021 to 2030. Survival tools are one of the most integral parts of recreational activities such as hiking, caving, rock climbing mountaineering and others. The survival tools are used as safety products while performing recreational activities. These includes survival knives, flashlight, first aid kit and others. In addition, the expansion of distribution channels such as online stores, specialty stores, supermarkets, hypermarkets, and B2B channels, has made these survival tools easily accessible to the customers, which in turn has increases the survival tools market demand. Additionally, the IOT embedded survival tools are the ongoing survival tools market trends.

The sports & recreational activities sector was severely affected during the outbreak of the COVID-19 pandemic. This is attributable to the facts that government of all the countries imposed strict lockdown in their countries, consumers were restricting themselves to go out from their home in order to maintain social distancing. Thus, the aforementioned facts hampered the growth of the market during pandemic.

By product type, the others segment is anticipated to grow at the highest CAGR during the forecast period. With owing to increase in demand for outdoor recreational activities due to rising population and trend of outing and outdoor recreation, the demand for survival tools

including whistles, ropes, GPS and others is consistently rising.

Moreover, by application, the camping segment in the survival tools market is anticipated to grow at the highest CAGR of 4.07% in terms of value sales during the forecast period. This is attributable to the rising trend of camping among the consumers, especially among millennial, which in turn is fueling the survival tools market growth.

Furthermore, by distribution channel, online store is anticipated to be the fastest growing segment in terms of value sales during the forecast period. This is because online platforms or e-commerce are becoming a popular medium for the purchase survival tools among the customers. This is due to easy availability of survival tools and the benefits provided by it such as the information about the product functional attribute, time-saving feature, and the facility of home delivery to the customers.

The global survival tools market is analyzed on the basis of product type, application, distribution channel, and region. By product type, it is classified into pocket tools, first aid kit, compass and others. By application, it is divided into hiking, hunting & fishing, camping and others. Based on distribution channel, the market is segregated into specialty store, online store, supermarket/hypermarket and others. Region wise, the market is analyzed across North America (the U.S., Canada, and Mexico), Europe (Germany, France, UK, Italy, Spain, Russia and rest of Europe), Asia-Pacific (China, India, Australia & New Zealand, Japan, South Korea, ASEAN and rest of Asia-Pacific), and LAMEA (Brazil, Saudi Arabia, South Africa, Turkey and rest of LAMEA).
