

PLUSnxt Expands Managed Review Services with Strategic Hire of New Director of Managed Review

Managed Review services industry expert, Catherine Pray, will lead the PLUS Managed Review team, providing clients with consistent & predictable review results

LOS ANGELES, CA, UNITED STATES, March 7, 2022 /EINPresswire.com/ -- [PLUSnxt](#), leading electronic discovery services provider, today announced the expansion of their Managed Review service with the addition of Catherine Pray as Director of Managed Review. In her new role, Pray will lead PLUSnxt's Managed Review team, fostering a team concept to promote an environment that allows the team to focus on better quality work, provide more predictable results and eliminate the need for repeat review.

“

Consistency of team members and a focus on quality enables the highest quality review product and avoidance of repeat work, resulting in financial and time-saving benefits for clients.”

Catherine Pray, Director of Managed Review

Catherine joins PLUSnxt with more than 10 years of experience and expertise in managed document review acting as a review attorney, team lead, manager, and director. She has supervised second requests, cases with several million documents, and teams of 250+ attorneys. She has a background in both corporate law and as a litigator and has worked extensively developing review workflows and the implementation of best practices and quality control. Ms. Pray is licensed to practice in New York and Utah.

The difference in PLUSnxt's Managed Review solution is rooted in the review team, who are continuously

empowered to focus on the quality of their review and not just the number of reviewed documents, resulting in a more consistent and valuable outcome. The team's arsenal of tools

includes not only the best review technologies but also a supportive team of colleagues and managers that work together to ensure the team is invested in the process, which has resulted in lower turnover rates and ultimately a better-quality review.

“PLUSnxt in-house reviewers have years of experience in all facets and phases of document review,” commented Catherine Pray, Director of Managed Review at PLUSnxt. “Due to our true team dynamic, reviewers are engaged and focused on projects ensuring quality experiences and work product for clients. Consistency of team members and a focus on quality enables the highest quality review product and avoidance of repeat work, resulting in financial and time-saving benefits for clients.”

The recently announced [PLUS Accelerator](#) program, which provides guided support and a dedicated RelativityOne environment, allows clients to take control of eDiscovery and capitalize on proven workflows and best practices. The PLUS review team, as a continuation of Accelerator, provides our clients with additional assistance to fill the gap when case teams do not have the bandwidth or budget to complete reviews in-house. While standard workflows and templates provide a great starting point, the PLUSnxt review team customizes these based on client requirements and then works closely with the client to review the documents and prepare them for production.
