

Edge Analytics Market Key Emergen Trends and Opportunity Analysis up to 2027

Edge Analytics Market The rise in the implementation of connected devices.

VANCOUVER, BC, CANADA, March 8, 2022 /EINPresswire.com/ --

The global [Edge Analytics Market](#) is forecasted to be worth USD 33.65 Billion by 2027, according to a current analysis by Emergen Research. Due to the growing demand for real-time intelligence on network devices, the global Edge Analytics market is forecasted to grow significantly over the forecasted period. Besides, the

rising government initiatives in Information and Communication Technology are anticipated to further fuel the market growth in the forecast timeline. Moreover, the rise in the implementation of connected devices is likely to drive the market growth shortly. IoT devices' adoption is growing exponentially, generating massive volumes of data and requiring real-time data analytics.

The lack of standardization of the use of the solution is expected to hinder the growth of the market.

Factors influencing the growth of the Edge Analytics market and impacting the growth of the industry are studied extensively in the report. The report considers the COVID-19 pandemic as one of the key influencing factors of the Edge Analytics market. The report discusses in detail the positive and negative impact of the pandemic on the Edge Analytics industry. The supply chain disruptions and economic volatility have altered the dynamics of the Edge Analytics industry.

Key Highlights From The Report

- In June 2020, ADRM Software was acquired by Microsoft Corporation. The combination of ADRM's extensive industry models with Azure's limitless storage and computation would facilitate the generation of an intelligent data lake where data from different business units can

be more rapidly harmonized seamlessly.

- In the forecast timeframe, the solution segment is expected to be the largest market with a CAGR of 31.4%. Priority optimization and decentralization of Edge analytics solutions and thereby avoided conventional techniques for collecting huge amounts of data. The paradigm is relatively recent and is closely aligned with the emergence of a viable future IoT platform.
- It is expected that the Prescriptive analytics segment will lead the market. This form of Edge Analytics gives suitable guidance to an employee relying on live streaming data or instantly beginning a process, contextualizing live stream operations within current company criteria.

The Edge Analytics research report also includes an insightful study of the prominent players of the industry along with their business overview, strategic planning, and business expansion plans adopted by them. This assists the readers and business owners in formulating strategic expansion and investment plans. The report focuses on mergers and acquisitions, joint ventures, collaborations, partnerships, corporate and government deals, and others. The report also talks about the expansions these prominent players are vying for in the key regions of the market. The report focuses on the detailed analysis of the technological and product developments undertaken by these companies.

Emergen Research has segmented the global Edge Analytics Market on the basis of component, type, deployment, end-use, and region.

- Component Outlook (Revenue, USD Billion; 2017-2027)
 - o Services
 - o Solution
- Type Outlook (Revenue, USD Billion; 2017-2027)
 - o Prescriptive Analytics
 - o Descriptive Analytics
 - o Diagnostic Analytics
 - o Predictive Analytics
- Deployment Outlook (Revenue, USD Billion; 2017-2027)
 - o On-Cloud
 - o On-Premises
- End-Use Outlook (Revenue, USD Billion; 2017-2027)
 - o Manufacturing

- oEnergy and Power
- oLogistics
- oEntertainment
- oHealthcare
- oDefence
- oTelecommunication
- oInformation Technology
- oRetail
- oBFSI
- oOthers

Regional Analysis :

On the basis of regional analysis, the market is segmented into the following regions: North America, Latin America, Europe, Asia Pacific, and Middle East & Africa. The market is expected to be dominated by North American nations closely followed by European countries. Asia Pacific is expected to show a significant growth owing to recent advancements and rising investments in the R&D sector.

The report addresses the following key points:

- The report provides a forecast of market drivers, restraints, and future opportunities for the Edge Analytics market
- The report further analyses the changing market dynamics
- Regional analysis and segmentation of the market with analysis of the regions and segments expected to dominate the market growth
- Extensive competitive landscape mapping with profiles of the key competitors
- In-depth analysis of business strategies and collaborations such as mergers and acquisitions adopted by the key companies
- Revenue forecast, country scope, application insights, and product insights
