

# LiquidPlanner Releases Project Management eBook

SEATTLE, WASHINGTON, USA, March 8, 2022 /EINPresswire.com/ --

[LiquidPlanner](#), a Seattle-based project management platform, has released an eBook for project leaders. The eBook, *The Project Leader's Guide to Successfully Adapt to Change and Manage Uncertainty*, provides tangible tools to achieve the momentum that your business needs to succeed through seamless project execution - aligning the who, what, why and when in one collaborative, centralized location. Research shows that 70% of organizations have had at least one project failure in the last year. These days, companies need to be more flexible than ever, ready to adapt in fast-paced environments and seize new opportunities. The guide dives into keeping workloads balanced, tracking progress to know where time goes, using a priority-driven methodology, and wrangling uncertainty with predictive scheduling to ensure that when priorities and work are constantly changing, so will your project plans.
