

Polyester Industrial Filament Market Growth Rate, Size Analysis, Industry Outlook, and Region Forecast, 2021-2028

Increasing demand from the textile industry, especially in the emerging economies is one of the significant factors influencing the market growth.

NEW YORK, NY, UNITED STATES, March 9, 2022 /EINPresswire.com/ -- Global [Polyester Industrial Filament Market](#) is expected to reach USD 73.42 Billion by 2028, according to a new report by

Reports and Data. The growth of the market is attributed to the increasing demand of polyester industrial filament amongst the end-use applications.

The increasing use of polyester industrial filament in the textile industry is likely to drive the growth of the market in the upcoming years. The polyester industrial filament possesses good elasticity, shape retention, wrinkle resistance, exceptional wash & wear performance, washability, and longevity, among others, and as a result, finds extensive application in various types of apparel fabrics. It is used to make fashionable dresses, weather-resistant clothing, and is a preferred material for children's wear.

Growing demand from the construction industry is likely to boost the market demand. Polyester Fiber Reinforced Concrete (PFRC) is used in cement concrete pavement material. Polyester industrial filament is resistant to alkali attacks, and PFRC is utilized as overlays and in pavement quality concrete. The application of PFRC may result in cement saving of nearly 10.0%, and with fly ash, the cement saving may be increased to about 35.0%. Polyester industrial filaments, owing to their non-biodegradable property, are used in cement concrete road works, thereby assisting in the conservation of environment.

Key Players covered in this report are

Tongkun Group Co. Ltd., Shenghong Corp., Xin Feng Ming Group, Reliance Industries Ltd., Reliance Industries Ltd., William Barnet & Son LLC, Hengli Group, Indorama Ventures Public Company Limited, Polyfibre Industries, Toray Industries Inc., and GreenFiber International SA,

Reports And Data

among others.

Major Points covered in this report are as below

The Polyester Industrial Filament industry development trends and marketing channels are analyzed. The feasibility of new investment projects are assessed and overall research conclusions offered.

With the tables and figures, the report provides key statistics on the state of the industry and is a valuable source of guidance and direction for companies and individuals interested in the market.

Development policies and plans, manufacturing processes and cost structures are also analyzed. This report also states import/export consumption, supply and demand figures, cost, price, revenue and gross margins.

The Polyester Industrial Filament Market report provides key statistics on the market status of the Polyester Industrial Filament manufacturers and is a valuable source of guidance and direction for companies and individuals interested in the industry.

Market Overview:

The chemicals and materials industry is made up of a diverse group of businesses that differ in size, geography, business style, and end-market emphasis. These businesses are part of a larger ecosystem that includes oil, gas, coal, minerals, and bio-based materials as raw materials on one hand and a diverse range of application industries on the other. Petrochemicals, diversified manufacturers, and speciality chemical businesses have all been segments of the sector in the past.

The chemical industry has long been associated with Western Europe and North America. For a long time, Europe has been the leading manufacturer of chemical products, followed by the United States and Japan.

The Polyester Industrial Filament market has been segmented into key regions of the world and offers an analysis of growth rate, market share, market size, current and emerging trends, production and consumption ratio, industrial chain analysis, demand and supply, import and export, revenue contribution, and presence of key players in each region. A country-wise analysis of the market is offered in the report to gain a better understanding of the regional spread and progress of the Polyester Industrial Filament market.

[detail/polyester-industrial-filament-market](#)

Based on Product Type market is segmented into:

- Partially Oriented Yarn (POY)
- Fully Drawn Yarn (FDY)
- Drawn Textured Yarn (DTY)
- Others

Based on Application market is segmented into:

- Tire Cords
- Mechanical Rubber Goods
- Non-Woven Fabrics
- Air Bags
- Sew Threads
- Others

Based on Region market is segmented into:

- North America
- Europe
- Asia-Pacific
- South America
- Middle East & Africa

About Us:

Reports and Data is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyze consumer behavior shifts across demographics, across industries, and help clients to make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Products, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Reports and Data has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
