The world has seen substantial rise in the number of infectious diseases over the past decade, and this trend is anticipated to be followed through this decade as well. We saw the onset of a major pandemic in 2020, which made the world rethink its approach toward infectious diseases and their control and prevention. Infection control is key to minimize the impact of any disease

as most result in community spread that often goes unmonitored. Improper sanitation of hospital surroundings and inadequate measures to curb infections from spreading are factors that majorly influence the need for hospital acquired infection control.

Key Players:

The report has profiled some of the important players prevalent in the global like – Olympus Corporation, Medivators Inc. (Cantel Medical Corp.), Getinge Group, STERIS Plc., Belimed AG (Metall Zug), Steelco S.P.A, Pfizer Inc., F. Hoffmann-La Roche Ltd, Merck & Co. Inc., Advanced Sterilization Products Services Inc. (Johnson & Johnson), Abbott Laboratories, Bayer AG, Alere Inc., The 3M Company, and Cepheid Inc and more.

This report covers the sales volume, price, revenue, gross margin, manufacturers, suppliers, distributors, intermediaries, customers, historical growth and future perspectives in the Hospital Acquired Infection Control Market.

Rising awareness regarding hospital acquired infections (HAIs), government initiatives to promote infection control, and increasing cases of hospital acquired infections are the main factors driving market growth. North America is anticipated to be the dominant market in terms of revenue share, while that in APAC is expected to rise at a noteworthy CAGR over the decade.

Prime players in the industry are focusing on maximizing their revenue potential across the globe and are trying to achieve this by adopting various growth strategies.

Infection control is being revolutionized by a Texas-based startup known as PURioLABS. The company has developed a new portable disinfection cabinet called PURioLABS. This new cabinet will provide rapid microbe and bacteria killing service for devices and equipment that are most used at medical institutions.

In April 2021, a division of Unimech Aerospace and Manufacturing, Unimech Healthcare announced the launch of its new disinfectant solutions and systems. The new range - UniClean, is equipped with UVGI technology and cloud-based operation.

Key Takeaways from Market Study

The global hospital acquired infection control market is slated to rise at a steady CAGR of 5% over the decade.

The market across the Asian region is predicted to rise at the fastest CAGR.

North America held a revenue share of around 30% of the global market in 2020.

Revenue from the sales of hospital acquired infection control equipment is anticipated to reach nearly US\$ 9 Bn by 2031.

Demand for hospital acquired infection control in APAC is expected to be majorly driven by developing healthcare infrastructure in emerging economies such as India.

Increasing focus on controlling infections, rising awareness about hospital acquired infections, government backing for infection control, and high prevalence of infectious and contagious diseases are some of the major factors driving market growth.

“Prevalence of infectious diseases is a major factor influencing the overall healthcare industry, and this is also majorly impacting demand for hospital acquired infection control equipment,” says a Persistence Market Research analyst.

Region Coverage (Regional Production, Demand & Forecast by Countries etc.):

North America (U.S., Canada, Mexico)

Europe (Germany, U.K., France, Italy, Russia, Spain etc.)

Asia-Pacific (China, India, Japan, Southeast Asia etc.)

South America (Brazil, Argentina etc.)

Middle East & Africa (Saudi Arabia, South Africa etc.)

If you have any special requirements, please let us know and we will offer you the report as you want.

Hospital Acquired Infection Control Market - Report Highlights

A detailed overview of parent market of Hospital Acquired Infection Control Market

Changing Hospital Acquired Infection Control Market dynamics in the industry

In-depth segmentation of the Hospital Acquired Infection Control Market

Historical, current, and projected Hospital Acquired Infection Control Market size regarding volume and value

Recent industry trends and developments in Hospital Acquired Infection Control Market

Competitive landscape of the Hospital Acquired Infection Control Market

Strategies for key players and products offered

Potential and niche segments, geographical regions exhibiting promising growth

A neutral perspective on Hospital Acquired Infection Control Market performance

Must-have information for Hospital Acquired Infection Control Market players to sustain and enhance their market footprint

Key Questions Answered in the Hospital Acquired Infection Control Market Report

How is the Hospital Acquired Infection Control Market expected to grow over the projected period?

What direction is the Hospital Acquired Infection Control Market expected to take in terms of volume and value during the forecast period?

What is the impact of macroeconomic factors on the Hospital Acquired Infection Control Market in future?

What are the key market drivers in the Hospital Acquired Infection Control Market?

What are significant opportunities and improvement areas for Hospital Acquired Infection Control Market manufacturers?

What are the key developments and trends taking over the Hospital Acquired Infection Control Market?

Which are the emerging countries that are expected to create significant growth opportunities in the Hospital Acquired Infection Control Market?

If you have any special requirements, please let us know and we will offer you the report as you want and also We Provide you Table of Content.
