

ION PRO Services is Proud to Announce ISO 9001:2015 Certification

With the ISO 9001:2015 Certification, ION PRO Services proves its commitment to providing quality service and products to its clients, customers, and employees.

HOUSTON, TX, UNITED STATES, March 9, 2022 /EINPresswire.com/ -- ION PRO Services LLC, a premier turnkey provider of [hot tap](#) and [line stop](#) services to the oil & gas industries, has been awarded the ISO 9001:2015 (Quality Management) certification this month. By meeting the criteria of these standards, ION PRO Services proves its commitment to providing quality service and products to its clients, customers, and employees.

Nationwide, onshore and offshore projects completed safely and efficiently.

Ken Breaux, Founder, and CEO of ION PRO Services, is proud of this achievement, hoping for more ISO Certifications to follow. "ION PRO Services is excited to have earned this certification," Breaux stated. "One of our core values is clarity and being ISO certified supports this value with processes and procedures that help us achieve consistent safety and quality for our clients."

“

One of our core values is clarity and being ISO certified supports this value with processes and procedures that help us achieve consistent safety and quality for our clients."

Ken Breaux

ION PRO Services, LLC is dedicated to offering expert solutions backed by repeatable practices to ensure safe, reliable, and high-quality products that will suit your hot tap and line stop project needs. The company works with

industry experts and additional experts on their team – to collaborate with the client's team to ensure that expectations are not only met but exceeded with a focus on quality, strategic direction, and critical decision making.

The ISO 9001:2015 is the world's most popular and sought-out quality management system

standard. It helps businesses like ION PRO Services, LLC prove their ability to consistently provide products and services that meet customer statutory and regulatory requirements.

The ISO 9001:2015 certification specifies requirements for a quality management system when an organization (ION PRO Services, LLC):

- a) demonstrates its ability to consistently provide products and services that meet customer and applicable statutory and regulatory requirements, and
- b) aims to enhance customer satisfaction through the practical application of the system, including processes for improving the system and the assurance of conformity to customer and applicable statutory and regulatory requirements.

All the requirements of ISO 9001:2015 are generic and are intended to be applicable to any organization, regardless of its type or size or the products and services it provides.

Critical components of the certification involve using the certificate to:

- Organize a QMS
- Create Satisfied Customers, Management, and Employees
- Continually Improve Their Processes
- Save Costs for the Organization and their Clients

ISO Certifications are obtained through extensive external audits performed by DNV, a world-class ISO certification organization and an independently accredited registrar company. This certification aims to enhance client and customer satisfaction by effectively applying a company's system, including processes for continued review and improvement.

"This certification gives our clients another layer of assurance that our hot tap fittings and services will meet their requirements," Breaux said. "Achieving this certification is a reflection on our team's commitment to following processes and procedures that produce repeatable results for our valued clients."

ABOUT ION PRO Services, LLC
