Supermarkets and hypermarkets will remain the main sales channels for sweet and savory snacks for the near future. However, as a newly-emerging retail channel that is seeing rapid growth, internet retailing is predicted to play a more important role. As a result of brand-building efforts and the establishment of logistics systems, key business-to-consumer online retailers such as yihaodian and Tmall have become more popular among domestic consumers. Internet

retailing is also able to provide consumers in lower-tier cities with easier access to newly-launched sweet and savory snacks. The greatest potential threat to the growth of sweet and savory snacks will be consumers' concern regarding food safety.

Based on type, savory snacks held a major share in the market. Changing lifestyle of people and consuming savory snacks in the occasion of parties, events and other functions to serve the people with beverage influence the positive impact of the savory snack market. Increasing the consumption among the population and rapid urbanization influences the food and beverage industries of key growth of the market. Snacking product is a leading trend in the food and beverage industry, which is a major key factor to fuel the growth of the global low calorie snacks market.
