LONDON, GREATER LONDON, UK,  
March 10, 2022 /EINPresswire.com/ --  
According to 'Insulated Concrete Form Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-

2026' published by The Business Research Company, the [insulated concrete form market size](#) is expected to grow from \$0.93 billion in 2021 to \$0.98 billion in 2022 at a compound annual growth rate (CAGR) of 5.39%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The insulated concrete market is expected to reach \$1.23 billion in 2026 at a CAGR of 5.81%. The increasing demand for energy efficient buildings is driving the insulated concrete form (ICF) market.

The insulated concrete form market consists of sales of insulated concrete form by entities (organization, partnership, sole-traders) that manufacture insulated concrete form. Insulated Concrete Forms (ICFs) are concrete wall forming systems that stay in place permanently as part of the structure and are not removed after the concrete has hardened. High density styrofoam or other lightweight materials are used for their formation. The insulated concrete forms are separate panels connected with plastic or metal ties or can be pre-formed interlocking blocks.
