

United States Mobile Cardiac Telemetry Devices Market Size, Current Trend, Regional and Global Forecast to 2021 - 2027

The United States Mobile Cardiac Telemetry Devices Market is expected to grow Higher by 2027.

NOIDA, UTTAR PRADESH, INDIA, March 10, 2022 /EINPresswire.com/ -- A comprehensive overview of the Mobile Cardiac Telemetry Devices market is recently added by UnivDatos Market Insights to its humongous database. The Mobile Cardiac Telemetry Devices market report has been aggregated by collecting informative data of various

dynamics such as market drivers, restraints, and opportunities. This innovative report makes use of several analyses to get a closer outlook on the Mobile Cardiac Telemetry Devices market. The Mobile Cardiac Telemetry Devices market report offers a detailed analysis of the latest industry developments and trending factors in the market that are influencing the market growth. Furthermore, this statistical market research repository examines and estimates the Mobile Cardiac Telemetry Devices market at the United States and regional levels. The [United States Mobile Cardiac Telemetry Devices Market](#) is expected to grow Higher by 2027.

Market Overview

The United States Mobile Cardiac Telemetry Devices Market is experiencing significant growth on account cardiovascular disease in the United States. In the United States, cardiovascular disease (CVD) is the leading cause of death. In 2018, 30.3 million people in the United States were diagnosed with heart disease. Heart disease is the leading cause of death in the United States, with 647,000 deaths each year. One out of every four deaths is due to heart disease. According to the Centers for Disease Control and Prevention (CDC)Trusted Source, an American has a heart attack every 40 seconds. Every year, 805,000 people in the United States have a heart attack,

with 605,000 of them experiencing it for the first time.

Moreover, the rising prevalence of CVD due to urbanisation, which exposes people to more pollution and stress, lifestyle changes such as eating more high-calorie foods and exercising less, and genetic issues such as long QT syndrome and catecholaminergic polymorphic ventricular tachycardia are driving demand for cardiac monitoring products for diagnostics.

COVID-19 Impact

The COVID19 has caused a major reassessment of the benefits and costs of cardiovascular care. The pandemic has wreaked havoc on people all around the world. In 2020, COVID-19 afflicted 185 countries and over 3000000 patients worldwide. Despite of the hindrance in supply chain, the COVID-19 epidemic has boosted demand for Mobile Cardiac Telemetry Devices, as there is a significant frequency of cardiovascular illness among COVID-19 patients, and >7% of patients experience myocardial injury as a result of the infection (22 percent of severely ill patients). CVD has been more prevalent in patients with advancing age, a functionally impaired immune system, or elevated levels of ACE2, and patients with CVD having a predisposition to COVID-19.

Furthermore, the United States was the country with the highest number of confirmed cases and deaths due COVID-19. As per Statista, there were around 34 million cases of COVID-19 infection in the United States as of 13th July 2021. Following reasons has surged the demand for mobile cardiac telemetry devices in the region.

United States Mobile Cardiac Telemetry Devices Market report is studied thoroughly with several aspects that would help stakeholders in making their decisions more curated.

By Technology, the market is primarily bifurcated into

- Lead-Based
- Patch-Based

Lead-based segment dominated the by type of the United States Mobile Cardiac Telemetry Devices market and will row at --% CAGR to reach US\$ -- billion by the year 2027.

By End-User, the market is primarily segmented into

- Hospitals
- Ambulatory Surgical Centres
- Home settings

Amongst application type, Hospitals accounted for the largest share in 2020 and is expected to grow at --% CAGR during the forecast period 2021-2027.

Mobile Cardiac Telemetry Devices Market Geographical Segmentation Includes:

Mid-West United States

South United States

North-East United States

West United States

Based on the estimation, the North-East region dominated the Mobile Cardiac Telemetry Devices market with almost US\$ -- billion revenue in 2020.

The major players targeting the market includes

BioTelemetry Inc.

Biotricity

Comarch

Hill-Rom Holdings Inc

Infobionic

Koninklijke Philips N.V.

Medicalgorithmics

Medicomp

Preventice Solution

Competitive Landscape

The degree of competition among prominent United States companies has been elaborated by analyzing several leading key players operating worldwide. The specialist team of research analysts sheds light on various traits such as United States market competition, market share, most recent industry advancements, innovative product launches, partnerships, mergers, or acquisitions by leading companies in the Mobile Cardiac Telemetry Devices market. The major players have been analyzed by using research methodologies for getting insight views on United States competition.

Key questions resolved through this analytical market research report include:

What are the latest trends, new patterns, and technological advancements in the Mobile Cardiac Telemetry Devices market?

Which factors are influencing the Mobile Cardiac Telemetry Devices market over the forecast period?

What are the United States challenges, threats, and risks in the Mobile Cardiac Telemetry Devices market?

Which factors are propelling and restraining the Mobile Cardiac Telemetry Devices market?

What are the demanding United States regions of the Mobile Cardiac Telemetry Devices

market?

What will be the United States market size in the upcoming years?

What are the crucial market acquisition strategies and policies applied by United States companies?

We understand the requirement of different businesses, regions, and countries, we offer customized reports as per your requirements of business nature and geography. Please let us know if you have any custom needs.
