According to 'Flowmeter Global Market
Report 2022 – Market Size, Trends, And
Global Forecast 2022-2026' published
by The Business Research Company,

the [flowmeter market size](#) is expected to grow from \$6.78 billion in 2021 to \$7.36 billion in 2022 at a compound annual growth rate (CAGR) of 8.68%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. As per TBRC's global flowmeter market report the market is expected to reach \$10.74 billion in 2026 at a CAGR of 9.88%. An increase in pharmaceutical production is expected to propel the growth of the flowmeter market.
