“Girl Behind the Bar” is a song about realizing your potential, and brings to light the way other people view you, and what you are capable of accomplishing. The inspiration came from watching a bartender have a rough night. She showed great resolve to do her job well, and not let anyone or the events around her bring her down. Her reaction struck the brothers as a metaphor across boundaries of continuing to work hard and do a good job no matter what life throws at you.

“

The guys have such different and fun personalities which adds another layer to their already unique blend of coastal Country.”
