

Global Long Steel Market is projected to reach \$731,934 million by 2030 | Allied Market Research

long steel market has witnessed significant growth in the past decade, due to rise in infrastructure and construction sectors such as railways, bridges & plants

PORTLAND, OR, UNITED STATES, March 14, 2022 /EINPresswire.com/ -- Global [long steel market](#) size was valued at \$476,213 million in 2020, and is projected to reach \$731,934 million by 2030, registering a CAGR of 4.1% from 2021 to 2030.

Growth of the construction sector in the residential and commercial sectors

has led to a favorable market for long steel goods in order to fulfil the need for housing from a fast-increasing population. Furthermore, new construction industry trends such as Lean Construction, Building Information Modeling (BIM), and Green Buildings have expanded the importance of prefabrication and modularization in construction, driving the demand for the long steel market or long steel goods market higher. In recent years, the steel industry as well as its linked mining and metallurgical industries have experienced significant investments and advances. According to the data published by the Department for Promotion of Industry and Internal Trade (DPIIT), Indian metallurgical industries garnered US\$ 14.24 billion in Foreign Direct Investment (FDI) from April 2000 to September 2020.
