

Antidiarrheals Market Diversifies Product Portfolio With Strategic Collaborations

*The Business Research Company's
Antidiarrheals Global Market Report 2022
– Market Size, Trends, And Global
Forecast 2022-2026*

LONDON, GREATER LONDON , UK,
March 14, 2022 /EINPresswire.com/ --
Major companies in the antidiarrheal
drug market are merging with other
companies in the market to increase
their reach and market share.

[Antidiarrheals market](#) trends include
companies merging with or acquiring
other companies to expand their market share, diversify their product portfolio, or acquire new
technologies. For instance, GlaxoSmithKline agreed to acquire Novartis AG's 36.5% stake in
consumer healthcare business for \$ 13 billion with an aim to expand the market.

In March 2020, Arcadia Consumer Healthcare, Inc., a USA based pharmaceutical company
acquired Kaopectate brand from Sanofi for an undisclosed amount. This acquisition enhanced
Sanofi's product portfolio by providing consumers with simple, efficacious, and high-quality
solutions. Sanofi, a France based biopharmaceutical company focused on human health.

Major players covered in the global antidiarrheals industry are GlaxoSmithKline, Actelion,
Perrigo, Lupin and Glenmark Pharmaceuticals, Merck & Co., Pfizer, Proctor & Gamble, Sanofi
Aventis and Bayer.

The global antidiarrheals market size is expected to grow from \$3.58 billion in 2021 to \$3.78
billion in 2022 at a compound annual growth rate (CAGR) of 5.5%. The growth in the market is
mainly due to the companies rearranging their operations and recovering from the COVID-19
impact, which had earlier led to restrictive containment measures involving social distancing,
remote working, and the closure of commercial activities that resulted in operational challenges.

The global antidiarrheal drugs market size is expected to reach \$4.39 billion in 2026 at a CAGR of 3.8%.

Rise in the number of diarrhea cases significantly contributes to the antidiarrheals market growth. According to UNICEF, diarrhea was the second leading cause of death among children under the age of 5 years that is responsible for killing 760,000 children every year. Increasing number of diarrheal cases shaping the antidiarrheals market outlook.
