New Research Study ""Aviation Cyber Security-Market Demand, Growth, Opportunities And Analysis of Top Key Player Forecast To 2028"" has been added to Coherent Market insight

The global Aviation Cyber Security market was valued at US\$ 4,180.8 Mn in 2020 and is expected to reach US\$ 6,810.3 Mn by 2027 at a CAGR of 7.1% % between 2021 and 2027.

Aviation cyber security is defined as a cyber-threat to the aviation system, which can come from a variety of mediums such as emails, social media, instant messaging, instant messengers, and websites. Aviation cyber security is created by looking at the aviation sector and developing a tailored approach to it. The first step in creating a cyber-security programme for the airline industry is to develop a vulnerability assessment tool. These tools are designed to identify any potential issues that can be exploited by hackers who want to gain access to specific information within the aircraft or the networks associated with the aircraft.
