These Mugs are DISH WASHER & MICROWAVE SAFE thanks to our high quality sublimation system.

We use only premium mugs to create high-quality products for you. Since each mug is made to order, we design, print, package, and ship your order from start to finish without using a third-party (POD) print-on-demand service.

Each mug is printed using sublimation ink that is heat cured into the surface of the mug, producing a durable finish that will last years. Unlike vinyl, our print will not wash off, crack or peel off the mug. We do not use vinyl on our products.
