"I'm super stoked that Prevelo has been recognized as one of the Pacific Regionals fastest-growing companies," said Jacob Rheuban, Founder of Prevelo Bikes. "The Pacific region of the USA is the home of some of the largest companies in the world. And then there's us, a little family-run company making bicycles for kids - recognized as one of the fastest-growing companies in the region. I don't really know how this happened, but if anybody deserves credit it's the small and mighty team that makes Prevelo crank every day. I'm privileged to work with such an amazing group of professionals. As a team, we believe it's important for kids to have quality bikes and that we have a duty to all of the present and future Prevelo families to be relentless in product design, quality, and customer service, and to work hard to make sure that every family that owns a Prevelo bike has the best family riding experience possible. With that said, we're going to allow ourselves a day to celebrate this recognition, so if you visit our shop today brace yourself for loud 80's music."

The companies on this list show a remarkable rate of growth across all industries in the Pacific. Between 2018 and 2020, these 150 private companies had an average growth rate of 195% percent and, in 2020 alone, they added 10,252 jobs and \$5.1 billion to the Pacific region's economy.
