

# Mike V the CEO of NS Modern and Google Maps Expert is Helping Businesses Grow and Thrive Through the Pandemic

*Mike V and the NS Modern team are the #1 Website Design Agency in Seattle, Portland, San Francisco, Los Angeles, San Diego, Phoenix, Denver, and New York City*

PORTLAND, OREGON, UNITED STATES, March 15, 2022 /EINPresswire.com/ -- NS Modern quickly became the fastest-growing [website design](#) agency in the United States. They started in Portland, OR, then branched out to Seattle, San Francisco, [Los Angeles](#), San Diego, Phoenix, Denver, and [New York City](#).

Mike V gained a special capability over the past 10 years by learning and studying Google Maps and becoming the top Google Map expert in the US. About 70% of all internet traffic in the world takes place on Google Maps. Mike V learned that if you could place a business in the top 3 of Google Maps, a business would gain a large amount of client traffic and requests for either products or services. He knew that businesses would fight and compete for those top 3 positions for years and years, he knew they were extremely valuable and very desired.

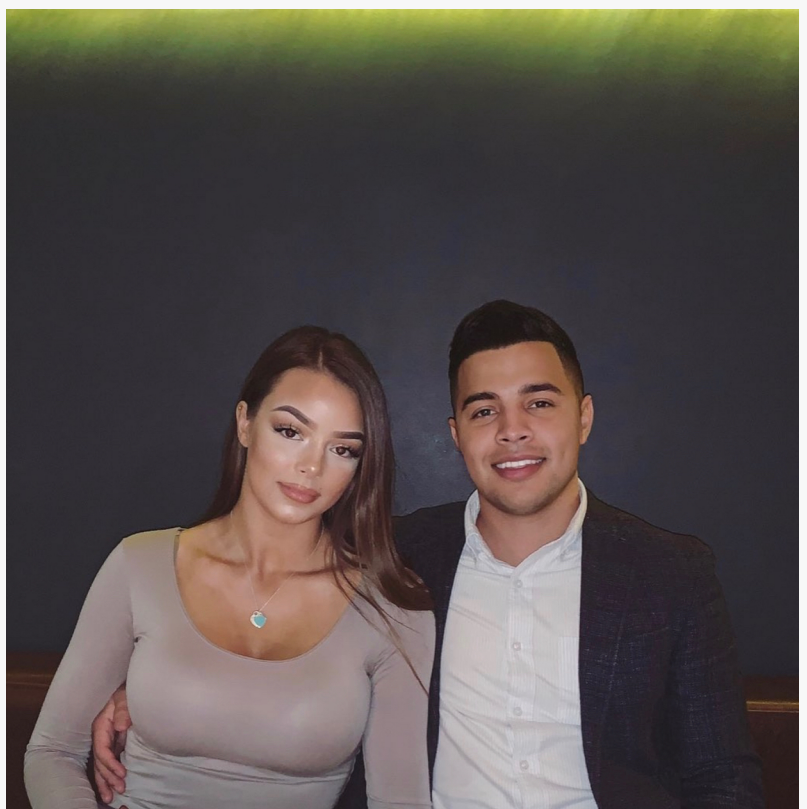

After placing businesses in the top 3 of Google Maps for his clients, Mike V saw small businesses go from making 4k a month to making 40k a month back in 2012. He remembers small business owners he started with being happy making 6k-10k a month in revenue. That quickly changed once they experienced Mike V ranking them in the top 3 of Google Maps. He says, "businesses that I work with strive for 100k - 200k a month in annual revenue. They see so much client traffic it can be overwhelming at times."

Research shows that getting in the top 3 of Google maps can take a long time and requires patience. This common idea allows many small businesses to be manipulated by SEO companies

Mike V, CEO of NS Modern with wife Shayna V

into believing they are getting true SEO services but are being charged monthly for practically nothing. Mike V lets his clients know that they should expect to take up to 12 months to get in the top 3 of Google Maps for their keywords, although Mike V tries to get much faster results and has been known to rank a business from 0 to top 3 of the Google Maps in 24 hours. This takes about a full 24 hours of vigorous effort, so it is not practical to do year-round. "When we focused only on Portland clients, I would promise to rank them in top 3 of Google Maps in 30 days or less, this was very easy for me until we branched out to other cities and became the #1 website designer in Seattle, San Francisco, Los Angeles, San Diego, Phoenix, Denver, New York as well as Portland. My time became more spread out so I had to train staff and hire a larger team."

Mike V, CEO of NS Modern with wife Shayna V

Mike V with his team at NS Modern helps his clients duplicate what they did for themselves by being ranked in the top 3 of Google Maps in any city in the US. Their clients are extremely thankful for the results and value that the NS Modern team brings to them.

“

businesses that I work with strive for 100k - 200k a month in annual revenue. They see so much client traffic it can be overwhelming at times.”
