

PRVC Systems Hospital Curtain Track System Available for Nationwide Deliveries

PRVC Systems has announced that its Hospital Curtain Track System is being delivered across the country. The nationwide delivery option is free for most deliveries.

PRVC Systems is known for having some of the best, if not the best, hospital curtain tracks in the country. The company recently announced that it delivers hospital curtain tracks across the country for free. It is the perfect opportunity for nursing homes and hospitals to order the company's suspended cubicle curtain track system in bulk without having to worry about the costs associated with shipping it. In addition, it offers the opportunity for businesses to give the revolutionary ICU curtain track a shot.

PRVC Systems

Seeing as how the prices of shipping have increased tremendously in recent months, PRVC Systems is one of the few companies to offer free shipping of their products. The company's hospital curtain is genuinely revolutionary, giving hospitals and nursing homes a way to create a private space to work in quickly. Furthermore, setting it up is immensely simple, which is why most hospitals and nursing homes will require multiple ICU curtain tracks or hospital curtain tracks. The free shipping motivates facilities to invest in a much cheaper, more practical system for everyone.

It is essential to understand that there is a growing demand and need for hospitals to expand their working spaces. However, limitations within a facility mean that the need to create private spaces is more than it ever was before, but it is a need that can't be fulfilled for the most part by traditional hospital curtains. Traditionally hospital curtains have always been bulky and require being drilled into the wall or ceiling, while still notorious for not working as well as they should. Traditional curtains cannot create portable private spaces. That's where PRVC Systems Hospital Curtain Tracks come in.

Readers can learn more about PRVC System by visiting the company's website at <https://www.hospitalcubiclecurtains.com>.

"Right now, clinical hygiene is more important than it ever was before in the past. Today, more hospitals and medical facilities are striving to keep their facilities clean, but it also needs to be easier to do, especially for surgeries and emergencies. Our curtains don't just create a private space but a space that minimizes the spread of infections within the facility. The hospital curtain and track systems we've designed are very easy to install and maintain because they are made from materials that are hygienically proven to reduce the spread of infection." Said a representative for PRVC Systems.

She added, "Our cubicle curtain solutions have over the years been developed with passion and use patented technology like the wall mount curtain track system. Each product is easy to use

and can be changed without needing a ladder. Plus, it is easy to move around when the time comes. That's one of the reasons why so many facilities are interested in our cubicle and curtain systems."

About PRVC Systems™

PRVC Systems™ is an American brand best known for its All-new PRVC systems for cubicle and shower curtains. The new systems by the company are designed for easier and faster change-outs. The curtains are designed to not bind on the track, ensuring that they are quieter compared to traditional grommet curtains on the market.
