

# Folic Acid Market Emerging Trends, Size, Share and Forecast Report Till 2027 | Reports and Data

*The Global Folic Acid Market is forecast to reach USD 1.07 Billion by 2027, according to a new report by Reports and Data.*

NEW YORK CITY, NEW YORK, USA,  
March 15, 2022 /EINPresswire.com/ --  
The Global [Folic Acid Market](#) is forecast to reach USD 1.07 Billion by 2027, according to a new report by Reports and Data. Folic acid may be referred to

as the synthetic form of vitamin B9. It is also known as pteroylmonoglutamic acid. The rising awareness about the health impact due to the deficiency of this vitamin like anemia, mouth ulcer, among others, is supporting the market growth. Increasing awareness about women health and care during pregnancy is also fostering sector growth.

An extensive analysis of the global market is included in the report which covers different factors from region-centric key statistical data to macro- and micro-economic factors that are crucial for forecast assessment. The study also offers a comprehensive analysis of the growth prospects, patents, technological advancements, and product launches in the market.

The report offers a panoramic view of competitive landscape of the global market to offer key insights into the key players and their business expansion plans. It also offers critical insights into their financial status, global position, product portfolio, revenue and gross profit margins, and technological and research developments. It further sheds lights on M&A activities, collaborations, partnerships, agreements, deals, and product launches among others. The research study deploys advanced research methodologies such as SWOT analysis and Porter's Five Forces analysis to offer deeper insights into key players.

Key Players:

Key participants include Zydus Pharmaceuticals Ltd., BASF SE, Jiangxi Tianxin Pharmaceutical Co.

Reports And Data

Ltd., Medicamen Biotech Ltd., Emcure Pharmaceuticals Ltd, DSM N.V, Shandong Xinfu Pharmaceutical Co., Ltd., Changzhou Kangrui., Niutang, Jiheng Pharmaceutical and Xinjiang Wujiagu Xingnong Cycle Chemical Co. Ltd.

Further key findings from the report suggest:

- The Folic Acid market held a market share of USD 750.9 Million in the year 2018 that is forecasted to grow at a rate of 4.0% during the forecast period.
- In context to Grade, the Food Grade segment is projected to witness a significant growth rate of 4.3% during the forecast period, which is expected to hold 37.0% of the market by 2027.
- In context to Form, the Tablets segment held the largest market share of more than 30.0% in 2018, with a CAGR of 4.3% during the forecast period. Easy availability of this vitamin in tablet form, wherein a wide product range is available for over the counter folic acid tablets, and the fact that this vitamin is commonly prescribed in tablet form for adults in the healthcare sector contributes to the market share held by this segment.
- In regards to Application, the Pharmaceutical segment occupied the largest market share of more than 40.0% in 2018, with a CAGR of 4.1% during the forecast period. The market dominance of the Pharmaceutical segment is attributed to the high demand for this vitamin in treating the deficiency of folate and rising awareness about women's health during pregnancy in the healthcare sector, which results in elevated application of the vitamin in this segment.
- In regards to the region, Europe held 19.0% of the market in 2018, with a CAGR of 4.2% during the forecast period. The market share held by the region is attributed to the expanding healthcare and pharmaceutical industry in this region, which is supporting the expansion of the sector in this region.
