LONDON, GREATER LONDON , UK,

The increase in the number of
surgeries is one of the major drivers of
the [anesthetics market](#) growth due to
the applications of anesthetic drugs
during surgical procedures. This rise is
mainly due to increasing incidents of

report on road safety, the number of road accidents reached 1.35 million, with approximately 64
deaths for every 100,000 vehicles.

The global anesthetics market size is expected to grow from \$9.24 billion in 2021 to \$9.88 billion in 2022 at a compound annual growth rate (CAGR) of 7.0 %. The market is expected to reach \$12.24 billion in 2026 at a CAGR of 5.5%.
