

GenieMD and VoCare Announce Collaboration to Integrate Vitals-360 Medical Device with Virtual Care Platform

Remote Patient Monitoring – Simplifying the patient experience.

DANVILLE, CALIFORNIA, UNITED STATES, March 15, 2022

/EINPresswire.com/ -- GenieMD, Inc (“GenieMD”), a provider of a HIPAA-compliant, cloud-based, mobile-first, virtual care platform and VoCare, Inc (“VoCare”), a leading innovator in FDA-cleared medical device which measures blood pressure, pulse, pulse oximetry, temperature, respiratory rate, and electrocardiography, have announced a partnership that integrates the Vocare FDA Cleared Vitals360 device with the remote patient monitoring module of GenieMD’s, virtual care platform, CONTINUUM.

“GenieMD’s CONTINUUM virtual care platform coupled with Vitals360 creates a compelling solution,” said Tom Foley, Chief Growth Officer, GenieMD and host of the HealthcareNowRadio program, The Virtual Shift, “Remote patient monitoring compliance becomes a lot easier when devices like Vitals360 makes vitals capture easy.”

GenieMD, was recently recognized by Frost & Sullivan as the Technology Innovation Leader across the North America Virtual Care Industry, provides a complete end-to-end, modular, customizable and scalable virtual care platform, inclusive of Telehealth, Remote Patient Monitoring(RPM), Remote Therapeutic Monitoring (RTM) and Chronic Care Management (CCM) coupled with clinical services via GenieMD Medical Group. GenieMD collaborates with their client partners to extend care from the providers brick-n-mortar presence to the home with a specific focus on moving the patient from an awareness to wellness.

“Coupling of diversity of the Vitals360 medical device with the GenieMD virtual care platform

Remote patient monitoring compliance becomes a lot easier when devices like Vitals360 makes vitals capture easy."

Thomas Foley, Chief Growth Officer, GenieMD

accelerates the path to a viable remote patient monitoring solution." Said, Ben Park, MD, CEO of Vocare, Inc., "collectively the solution is a trusted and reliable approach - perfect for addressing the needs across different setting of care (i.e., the home, self-ensured employers, schools and even putting it in a case for the visiting nurse service).

About GenieMD

Based in San Francisco, California, GenieMD, Inc. is an award-winning, global provider of telemedicine, clinical call

center triage, and remote patient monitoring solutions. GenieMD offers customized, white-labeled telehealth solutions to hospitals, health networks, large group practices and commercial insurance carriers. Its enterprise clients are based throughout the United States as well as in Europe, Asia and South America. Maximizing the potential of cloud computing, big data, artificial intelligence and mobile technologies, GenieMD is transforming health care to provide the best and fastest care to patients when they need it most. GenieMD is Legitscript-approved, having met the highest standards for legality, safety and transparency. For more information visit www.genieMD.com

About VoCare

VoCare, Inc., is an Indiana-based company that developed the world's first professional grade medical diagnostic device. The VoCare Vitals360® collects patient health vitals through wireless technology and can be used for Point-of-Care and Remote Patient Monitoring to empower management of multiple chronic conditions while providing the following health measurements: (1) Blood Pressure; (2) Pulse; (3) Pulse Oximetry; (4) Temperature, and (5) Electrocardiography (ECG). The VoCare Vitals360 is a powerful diagnostic stand-alone device that addresses new CMS initiatives and is ideal for use by Home Healthcare professionals and in Chronic Care Management.
