Global FMCG Market by Type and Distribution Channel: Opportunity Analysis and Industry Forecast, 2018 - 2025

PORTLAND, 5933 NE WIN SIVERS DRIVE, #205, OR 97220, UNITED STATE, March 15, 2022 /EINPresswire.com/ -- Changes in lifestyle majorly drives the growth of the [FMCG market](#)

According to a new report published by Allied Market Research, titled, "Global FMCG Market by Type and Distribution

Channel: Opportunity Analysis and Industry Forecast, 2018 - 2025,"the global FMCG market size was valued at \$10,020.0 billion in 2017 and is projected to reach \$ 15,361.8 billion by 2025, registering a CAGR of 5.4% from 2018 to 2025.

Fast moving consumer goods (FMCG) is the largest combination of consumer goods with different product categories that include home, health, and personal care and food & drinks including its marketing, production, and distribution. The personal care segment is anticipated to witness substantial growth owing to the rise in disposable income of consumers, thus enabling them to spend considerable amount on luxury personal care products.

Trends, opportunities and forecasts by 2018-2026

Other factors such as surge in trend of online shopping, R&D for the new brands & products, and expansion of FMCG network in rural areas of the developing countries are expected to open new avenues for the FMCG market players in the future. However, high competition among major market players and retail execution are expected to hamper the global FMCG market growth. In the recent decade, there is a trend that consumers are more concerned about their health and personal hygiene, thus preferring hygienic lifestyle. Consumers choose their daily need products according to their hygienic compatibility and thus change their purchasing decisions according to

FMCG

their lifestyle. This trend is becoming opportunities for the FMCG market. Companies are offering the products, which are compatible to the lifestyle of their targeted consumer segment.
