

Purism Launches Librem SIMple: A Cellular Service that Protects Digital Privacy

Say "hello" to an affordable cellular plan, Librem SIMple, a privacy-focused prepaid service in USA

SAN FRANCISCO, CALIFORNIA, USA, March 16, 2022 /EINPresswire.com/ -- [Purism](#) expanded the [Librem AweSIM](#) pre-paid service to offer a new plan at an ever more affordable price. [Librem SIMple](#) offers digital privacy protection with a 1GB monthly data limit and a \$39/month.

Traditional cellular providers in the US are selling data for advertising. They are creating unified customer identifiers. This way, they can "identify users across many devices and serve them relevant advertising." With the Librem AweSIM and Librem SIMple, users' personal information is never sold, disclosed, or even seen by the big telecom carriers.

“

Most companies think data is gold. That's why monetize their customer data. Purism thinks data is uranium. We collect the least amount of customer data and get rid of it once we no longer need it.”

Kyle Rankin, Chief Security Officer, Purism

Chief Security Officer at Purism, Kyle Rankin, elaborates "Most companies think data is gold. That's why they are double-dipping from their paying customers to monetize customer data. Purism thinks data is uranium. We collect the least amount of customer data necessary to provide a service and get rid of it once we no longer need it."

Purism also offers Librem AweSIM, a premium \$99/month unlimited prepaid plan. Since its launch in 2020, many customers enjoy privacy protections that AweSIM provides. Some don't need unlimited data and the premium price that goes with it. Purism has updated the back-end

infrastructure that powers AweSIM to launch Librem SIMple, making the service available to many more.

Power your Librem 5 USA with Librem SIMple

The Librem SIMple card can be ordered with Librem 5 or Librem 5 USA phone, or be used as a standalone prepaid cellular service to use in other unlocked phones.

With Librem SIMple, subscribers get:

1GB* high-speed 4G/4G-LTE data
Unlimited talk time and texts within the USA

The ability to send texts globally, to over 160 countries at no additional cost

Roaming included at no additional cost within the US, US Virgin Islands, Puerto Rico, Canada, and Mexico

Video streaming at full speed
