

Fluoropolymer Coating Additives Market: Popularity of Architectural Application Rising Rapidly – Fact.MR Analysis

Coating Additives Market By Product, By Function, By Formulation, By Application - Global Market Insights 2021 to 2031

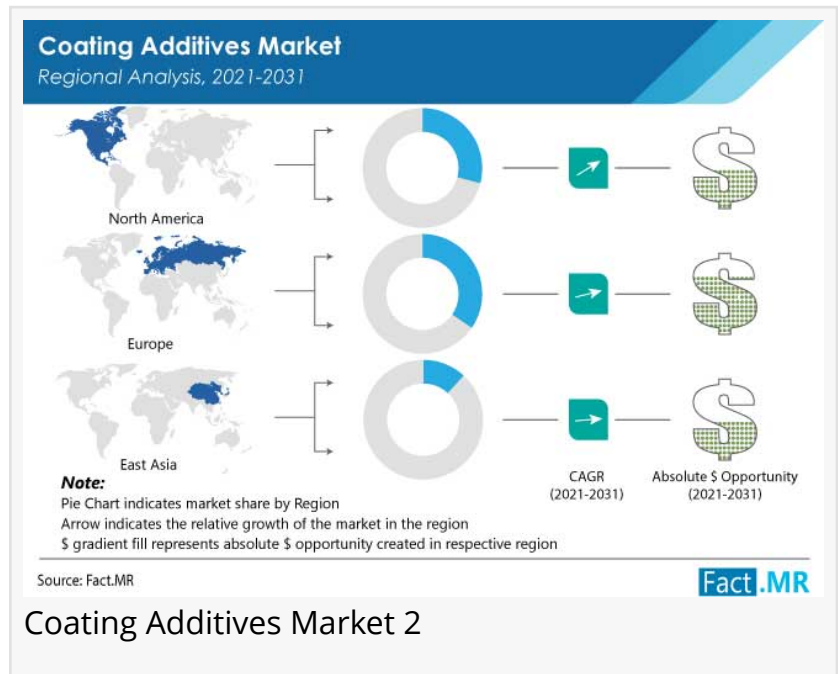

DUBLIN, IRELAND, March 16, 2022 /EINPresswire.com/ -- The impact of the COVID-19 outbreak has compelled several manufacturers and industries to rethink their operations to gradually recover from the losses incurred for years to come. The organic chemicals industry suffered a huge setback due to halted production and a limited supply of raw materials.

The market study done by Fact.MR gives exclusive information about how the market will grow. The study identifies crucial trends that are determining the [growth of Fluoropolymer Coating Additives market](#). This newly published report sheds light on vital dynamics, such as the drivers, restraints, and opportunities for key market players as well as emerging players associated with the production and supply. The latest report by Fact.MR provides detailed Market Analysis of Fluoropolymer Coating Additives

To remain 'ahead' of your competitors, request for a sample – https://www.factmr.com/connectus/sample?flag=S&rep_id=2427

The report offers actionable and valuable market insights of Fluoropolymer Coating Additives. The latest report by Fact.MR provides details on the present scenario of the market across various regions along with the historic data and forecast of the market. The report also includes information on the sales and [demand of Fluoropolymer Coating Additives Market](#) across various industries and regions.

This newly published and insightful report sheds light on Market Insights of Fluoropolymer

Coating Additives, key dynamics, their impact on the overall value chain from suppliers to end-users and Growth of Fluoropolymer Coating Additives Market.

The study offers a comprehensive analysis of diverse features including demand, product developments, policy & regulatory landscape, revenue generation, and sales in the Fluoropolymer Coating Additives market across the globe.

A comprehensive estimate on the Fluoropolymer Coating Additives market has also considered the market estimates through forecast factors regarding the [sales of Fluoropolymer Coating Additives](#) in the forecast period. Price point comparison by regions and by product with global average price is also considered in the study.

Key Segments in Fluoropolymer Coating Additives Industry Research

- Product

- Acrylic-based Fluoropolymer Coating Additives
- Urethane Fluoropolymer Coating Additives
- Metallic Fluoropolymer Coating Additives
- Fluoropolymer Coating Additives

- Function

- Rheology Modifiers
- Dispersants
- Foam Control
- Slip/Rub
- Wetting Agents
- Others
- Anti-Foaming Fluoropolymer Coating Additives
- Defoaming Fluoropolymer Coating Additives

- Formulation

- Waterborne Fluoropolymer Coating Additives
- Solvent-based Fluoropolymer Coating Additives
- Powder Fluoropolymer Coating Additives
- High Solids Fluoropolymer Coating Additives
- UV Cure Fluoropolymer Coating Additives
- Others
- Radiation Curable Coatings
- Solvent-borne Coatings
- Solvent Less Coatings

- Application

Architectural Fluoropolymer Coating Additives

Automotive Fluoropolymer Coating Additives

Wood & Furniture Fluoropolymer Coating Additives

Industrial Fluoropolymer Coating Additives

Key Takeaways from Market Study

- Global Fluoropolymer Coating Additives market to top US\$ 11 Bn by 2031.
- Waterborne Fluoropolymer Coating Additives are projected to reach around US\$ 2.5 Bn by 2031.
- Solvent-based Fluoropolymer Coating Additives are projected to record above 4% CAGR over next 10 years.
- Market in Japan to record 3% CAGR over the forecast period of 2021- 2031.
- China forecast to reach a projected market size above US\$ 3 Bn by 2031.
- Market in Canada projected to expand at above 4% CAGR over next 10 years.

“Coating additive manufacturers are focusing on expanding their product portfolios by adding sustainable and multifunctional additives, which are anticipated to witness high demand in the foreseeable future,” says a Fact.MR analyst.

Market Competition

- New entrants and emerging companies manufacturing Fluoropolymer Coating Additives market are involved in product innovation, expansion of product portfolio, and collaborations with industry giants and end users to capture as much visibility as possible.
- In 2019, BASF introduced Hydropalat WE 3225, a new silicone wetting agent in its product portfolio. This new product combines excellent substrate wetting agents with pronounced defoaming performance. The company also launched Dispex Ultra PX 4290, a new high molecular weight dispersing agent, which opens up a plethora of opportunities in broad applications such as automotive OEM & refinish coatings, industrial coatings, and wood coatings.
- In 2019, Daikin Industries Ltd., a leading producer of fluoropolymer products announced the

establishment of a new subsidiary in Jiangsu Province, China for the sales and manufacturing of fluorochemical products.

Key Question answered in the survey of Fluoropolymer Coating Additives market report:

- What is the current global market size of Fluoropolymer Coating Additives?

The global Fluoropolymer Coating Additives market is currently worth more than US\$ 8 Bn.

- What is the expected growth rate of the market for Fluoropolymer Coating Additives over the next 10 years?

The market is anticipated to rise at a CAGR of 5% over the forecast period of 2021 to 2031.

- What are the key market trends of Fluoropolymer Coating Additives?

Growing popularity among end-users, especially automotive, shipbuilding, and pipeline industries, will encourage the growth of the market.

- Which are the top companies providing Fluoropolymer Coating Additives?

Major market players are Eastman Chemical Company, Arkema SA, ANGUS Chemical Company, and BASF SE, as per ratings on the basis of market share, market reach, clientele, etc.

- At what rate will demand for waterborne Fluoropolymer Coating Additives rise?

Demand for waterborne Fluoropolymer Coating Additives is projected to increase at a CAGR of 4.5% through 2031.

More Valuable Insights on Fluoropolymer Coating Additives Market

Fact.MR, in its new report, offers an unbiased Market Analysis of Fluoropolymer Coating Additives, Sales and Demand of Fluoropolymer Coating Additives, analyzing forecast statistics through 2019 and beyond. The study reveals growth projections on the basis of various criteria.

Explore Fact.MR's Coverage on the Chemicals and Materials Domain:

Bio-succinic Acid Market - <https://www.factmr.com/report/5405/biosuccinic-acid-market>

The covid-19 pandemic had disastrous impact on the global Bio-succinic Acid market. Due to restrictions on transport from region to region, it had adverse consequences on the market. Government initiatives to stop the disease from spreading like lockdown rules had to take place at the cost of a significant down fall of the overall Bio-succinic Acid production.

Surge Suppression IC Market – <https://www.factmr.com/report/surge-suppression-ic-market>

According to the latest study by Fact.MR, surge suppression IC market is expected to grow significantly over the projected forecast period (2021-2031). Increased focus for the security of power supply and expanding interest for utility clients have provided a positive outlook to the suppression IC market

Liquid Propellants Market – <https://www.factmr.com/report/Liquid-Propellants-Market>

The expansion of the rocket propulsion sector is fueled by an increase in the number of space expeditions, high efficiency and technological improvements in the rocket propulsion, due to which the liquid propellants market is expected to grow at a CAGR of over 7% during the forecast period and demand for the product is set to behold the huge gain.
