

# IQF Vegetable Market Astonished To Reach \$7.1 billion by 2030

*The global IQF vegetables market growth is expected to be driven by surge in demand for IQF vegetable from the food service industry*

PORTLAND, 5933 NE WIN SIVERS DRIVE, #205, OR 97220, UNITED STATES, March 16, 2022

/EINPresswire.com/ -- According to a new report published by Allied Market Research, titled, "[IQF Vegetable Market](#)" by Product Type and Application: global opportunity analysis and industry

IQF Vegetable Market

forecast, 2021–2030," the global IQF vegetable market size was valued at \$4.7 billion in 2020, and is projected to reach \$7.1 billion by 2030, registering a CAGR of 4.2% from 2021 to 2030. IQF vegetable are types of frozen food products, which are preserved by using IQF technique that uses the fluidization approach. This results in freezing vegetable for 10–12 minutes and keeps the vegetable fresh for longer period of time. From the past few years, rise has been witnessed in the demand for IQF vegetable from the residential sectors. This is attributable to their availability throughout the year, and they minimize preparation time.

IQF vegetable requires adequate refrigeration and storage facilities. Rapidly increasing number of retail stores, including supermarkets and hypermarkets majorly in developed economies like Europe and North America has enabled easier availability of IQF vegetable, as these stores are equipped with deep refrigeration and improved storage facilities. Supermarkets, hypermarkets, and other high-end retail stores serve as a better distribution point for IQF vegetable.

The global IQF vegetables market growth is expected to be driven by surge in demand for IQF vegetable from the food service industry, owing to the various benefits offered by IQF vegetable such as reduced preparation time and availability in all seasons.

The outbreak of coronavirus has negatively impacted the IQF vegetable industry along with all

stages of supply chain and value chain. During this COVID-19 outbreak, declaration regarding the lockdown in various countries of the world has affected the production of food & beverages sector. This, in turn, has negatively impacted the growth of the IQF vegetables market in terms of sales and revenue generation.
