

Mythbuster Tory Belleci Gets to THE TRUTH ABOUT TECH in Podcast Series

The show exposes the facts behind the big buzzwords, separating rumor from reality

MONTEREY, CA, USA, March 17, 2022 /EINPresswire.com/ -- Television host and Mythbuster Tory Belleci today launched his audio podcast series The Truth About Tech. The series consists of 30-60 minute audio episodes in which Tory discusses hot tech topics with top experts, in a light and fun fashion. The show is now available through [Spotify](#), iTunes, [Google Podcasts](#), [Stitcher](#), [Castbox](#), [Pocketcasts](#) and [RadioPublic](#), with new episodes debuting weekly.

A Unique Approach to Talking About Science & Technology

Instead of the traditional slow-exposition style followed by the majority of shows that cover scientific and technological subjects, by running solely online The Truth About Tech isn't required to drive the viewer through multiple commercial breaks in order to get to the real information. The show is supported by sponsors with only two brief promotional pieces during a given episode. The rest of the time is dedicated to Tory in conversation with interesting and knowledgeable gurus on highly topical subjects.

"We all experience technology in our daily lives," said Builder and Mythbuster Tory Belleci. "In this series we'll explore what's really going on under the hood by speaking with true experts. It's fun and useful to anyone who wonders What is The Truth About Tech?"

Episodes feature guests from many facets of technology. In one episode, Tory talks with a NASA Astronaut about the Billionaire Space Race. In another, he discusses the crypto market with one
