

Global Colorectal Cancer Drugs Market Trends, Strategies, Opportunities For 2022-2026

*The Business Research Company's
Colorectal Cancer Drugs Global Market
Report 2022: Market Size, Trends, And
Forecast To 2026*

LONDON, GREATER LONDON, UK,
March 17, 2022 /EINPresswire.com/ --
According to 'Colorectal Cancer Drugs
Global Market Report 2022 – Market
Size, Trends, And Global Forecast 2022-

2026' published by The Business Research Company, the [colorectal cancer drugs market size](#) is expected to grow from \$12.77 billion in 2021 to \$13.60 billion in 2022 at a compound annual growth rate (CAGR) of 6.5%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The global colorectal cancer drug market is expected to reach \$16.43 billion in 2026 at a CAGR of 4.9%. The increase in number of colorectal cases will add to the overall size of the global colorectal cancer drugs market growth.

The colorectal cancer drugs market consists of sale of colorectal cancer drugs. Colorectal cancer (CRC) or bowel cancer, is the cancer affecting large intestine and the rectum. They are also named, colon tumor or rectal cancer depending upon where they begin.

Global [Colorectal Cancer Drugs Market Trends](#)

Targeted therapies have already begun to extend the lifespan of metastatic colorectal cancer patients compared with chemotherapy-only therapy. Target therapy includes hormone therapies, gene expression modulators, apoptosis inducers, angiogenesis inhibitors, immunotherapies, signal transduction inhibitors, and toxin delivery molecules. Targeted therapy is attaining importance due to its specificity toward cancer cells, while sparing the toxicity to off-target cells.
