

Buggyra secured strategic partnership with GLEEC

The Estonian company, located in Tallinn, has its own product Gleec Coin.

TALLINN, ESTONIA, March 17, 2022 /EINPresswire.com/ -- It entered the cryptocurrency market back in 2019 and has become one of the most promising blockchain projects in the world.

Choosing GLEEC was not a random decision. Estonia has been one for a long time of the most digitally advanced societies in the world. The cryptocurrency idea is based on blockchain technology, which is used by Estonia in its state registry. Since 2017, the country has been working on its own cryptocurrency called Estcoin, which is not supposed to replace the Euro but to offer a new platform for further progress of a digital economy.

The Buggyra management explains the new partnership by the fact, that

GLEEC has a great chance of becoming one of the most advanced blockchains in the world. The Tallinn company also strictly adhere to a philosophy based on fractional power consumption and minimal carbon footprint. The Buggyra team plans to introduce an NFT digital collection on the GLEEC blockchain. This partnership will be presented across all competitions.

Martin Koloc, as the team principal, speaks about a partnership for the future. "Buggyra and GLEEC are both striving for constant progress and development. Both brands also have the same philosophy about environmental protection. Apart from that, GLEEC and its NFT can help us to communicate with our ever-expanding Facebook community. We're glad that we were able to

find a partner with the same philosophy and we believe in long and successful cooperation.”

About Buggyra ZM Racing

A team with the 50 years of heritage and among the world leading racing structures and technology developers with own Technology Centers in Dubai (UAE), the Czech Republic and Spain. Buggyra ZM Racing started to gain racing success in truck racing with 11 European championships, three Chinese championships and one French and Indian championship. In 2014, the team entered cross-country rallying with Tatra trucks. This was followed by an entry into the light prototypes category, where Buggyra won Dakar Rally with Can-Am in 2021. The team also counts for six world speed records. Currently, Buggyra ZM Racing competes in GT and Formula series in addition to truck racing and cross country rallying. Buggyra ZM Racing will expand its worldwide racing program to field two cars in the NASCAR Whelen Euro Series (NWES) in 2022.
