

Wooden Floor Market Growth Opportunities, Product Scope, and Revenue Estimation by 2025

Rise in investment in interior designing of residential as well as commercial properties fuel the growth.

PORTLAND, OR, UNITES STATES, March 17, 2022 /EINPresswire.com/ --

According to a new report published by Allied Market Research, titled, the global [wooden floor market](#) was valued at \$90,638.1 million in 2017, and is projected to reach \$141,091.3 million in 2025, growing at a CAGR of 5.9%, while in terms of volume, the market is expected to grow at a CAGR of 4.7% by 2025. The engineered wood segment accounted for more than two-thirds of the market share in 2017, and is expected to witness significant growth during the forecast period.

A wooden floor is a type of hard surface flooring, which lasts for decades, can be cleaned easily, and is hygienic than other flooring. There is an increase in demand for the flooring, owing to rise in construction projects across different regions of the world. In addition, its installation enhances the beauty adds value, and makes the room look spacious, which are expected to propel the growth of the market. However, high cost of manufacturing is anticipated to restrain the market growth.
