## About the DoD Joint Artificial Intelligence Center

The Department of Defense (DoD) Joint Artificial Intelligence Center (JAIC) was established in 2018 to be the focal point of the DoD Artificial Intelligence (AI) Strategy to accelerate scaling AI and its impact across the Department. Working closely with the Services, Combatant Commands, and other Components, JAIC identifies appropriate use cases for AI across DoD, rapidly pilots solutions, and scales impact across its enterprise.

The mission of the JAIC, as specified in the DoD AI Strategy, is "to accelerate the delivery of AI-enabled capabilities, scale the Department-wide impact of AI, and synchronize DoD AI activities to expand Joint Force advantages."
