

# Universal Music Group opens the door in Kansas via Real Life Music, LLC lead by NoxBond and Trill Will

*The music industry has new avenues for artists in the midwest. There is an official Universal Music Group company and representative in the middle of the map*

WICHITA, KS, USA, March 18, 2022

/EINPresswire.com/ -- Real Life Music, LLC Started in Wichita, KS in the early 90s, as a very small, independent record label with one artist : Noxious.

The direction the company took and the plan that was outlined in the early 90s foreshadowed the blueprint that was to come.

Noxious had no outlet, no connections, no industry friends, and no leader to follow. He had no friends, and no resources.

The first project "This is Noxious", was recorded on a 2-tape karaoke machine. The beats were created from using a radio shack microphone held up to computer speakers to record midi interpretations of popular songs from the 90s. That tape was then recorded over another tape, for the finished project.

The quality was horrible. But the people who heard it loved it, and Noxious took it as far as he possibly could.

He established a relationship with Radio by sending it to the PD. He got free studio time when it was heard by a studio. When he got to the studio, he met a producer who agreed to produce for him, and the owner of the Studio saw the potential for more. So he had Noxious help him open a magazine, "The Hot Sheets", which required a graphic artist, so Noxious started working with Dante , and opened his first advertisement company on the streets of Wichita, KS going business to business getting customers for graphics and magazine ads, and then started performing at

Trill Bond is long overdue.

"The Sky Bar" where he met other artists, and started a cycle of growing his network through making the best music that they could make.

and then Real Life happened and everything got put on the back burner until Noxious became Nox, and then later, NoxBond and met Trill Will.

On the other side of the country, in Deland, FL Trill Will was laying the ground work for something bigger than himself.

He was recording in professional studios, going out to events, and meeting the right people. He was touring with Lil Boosie and Webbie, and doing songs with Webbie. He even partnered up with Webbie's brother Derrick, and started moving through Savage Life and Supa Unit, picking up new information every day he was on the road, being a major part of the growth of Supa Unit and Savage Life, so much so that his company Full Circle Music Group partnered with them officially over 10 years ago, and he became a member of their executive team. He was outshining everyone he would come near.

“

..really big for Wichita and the entire state of Kansas. What they have done has immediate effects for the City and long term benefits for the State. This deal with UMG positions RLM as the anchor..”
