

Ceramic Fiber Market Overview by Industry Chain Information, Upstream Raw Materials & Downstream Industry

*Market Size – USD 1.92 Billion in 2020,
Market Growth – at a CAGR of 9.7%,
Market Trends – Increasing demand for
ceramic fiber in automotive industry*

VANCOUVER, BC, CANADA, March 20, 2022 /EINPresswire.com/ -- The global [ceramic fiber market](#) size reached USD 1.92 Billion in 2020 and is expected to register a revenue CAGR of 9.7%, during the forecast period, according to latest analysis by Emergen

Research. Rising demand for ceramic fiber in petrochemicals aerospace industries are some of the major factors driving global ceramic fiber market revenue growth. Revenue growth of the market is also expected to be driven by increasing demand for ceramic fiber from the automotive industry.

Additionally, the report also gives an insight into product portfolios, costs, sales, production capacities, and market players. Raw materials, demand analysis, product flow, and distribution channels have been studied and surveyed extensively in this research report. The key growth trends and opportunities are offered through a thorough investigation and examination of the market. A detailed course of development is offered in the report along with insights into businesses connected with it, which include firms, industries, organizations, vendors, and local manufacturers.

Leading Companies of the Ceramic Fiber Industry and Profiled in the Report are:

HarbisonWalker International, Inc., Unifrax I LLC, Morgan Advanced Materials PLC, Isolite Insulating Products Company, Limited, YESO Insulating Product Co., Ltd., FiberCast Inc., Ibsiden

Co. Ltd., Luyang Energy-saving Materials Co., Ltd., Double Egret Thermal Insulation Co., Ltd., and NUTEC Group

Some Key Highlights from the Report

Alkaline Earth Silicate (AES) wool segment is expected to register a significantly robust revenue growth rate over the forecast period. AES wools are made of amorphous fibers that are formed by melting a mixture of MgO, CaO, and SiO₂. AES wool products are typically utilized at temperatures exceeding 1,100°F (600 °C) in industrial equipment, fire prevention, and automotive exhaust systems.

Asia Pacific is expected to account for a larger revenue share than other regional markets over the forecast period due to increasing demand for ceramic fiber across various industries including petrochemicals, automotive, and power generation in countries in the region.

In July 2020, Carbo San Luis SA was acquired by Morgan Advanced Materials PLC. This follows 22-years of collaboration and ensures the company's continuing growth and development. Morgan Advanced Materials aims to utilize advanced materials to assist make better use of the world's resources, and this is a global producer of specialty goods made from carbon, advanced ceramics, and composites.

Emergen Research has segmented the global ceramic fiber on the basis of product form, type, end-use, and region:

Product Form Outlook (Volume Tons, Revenue, USD Billion; 2018–2028)

Module

Paper

Blanket

Board

Others

Type Outlook (Volume Tons, Revenue, USD Billion; 2018–2028)

Refractory Ceramic Fibers (RCF)

Alkaline Earth Silicate (AES) Wool

Others

End-Use Outlook (Volume Tons, Revenue, USD Billion; 2018–2028)

Power Generation

Refining & Petrochemical

Iron & Steel

Aerospace

Automotive

Others

Regional Analysis:

The report sheds light on the region expected to dominate the Ceramic Fiber market in the coming years. The report estimates the market size in terms of volume and value and offers an accurate estimate of the market share each region is anticipated to hold during the forecast period. The report analyzes the spread of the Ceramic Fiber market in key geographies covering North America, Latin America, Europe, Asia Pacific, and Middle East & Africa. The regional analysis offers an idea about the production and consumption pattern, import/export, supply and demand ratio, revenue contribution, market share and size, and the presence of prominent players in each region.

Key Points of Ceramic Fiber Market:

Extensive coverage of the analysis of the Ceramic Fiber market

Key insights into the regional spread of the industry in key geographies

Radical insights into the vital market trends; both current and emerging trends, and factors influencing the growth of the market

Comprehensive coverage of the impact of the COVID-19 pandemic on the overall growth of the

Ceramic Fiber market

Complete data about the key manufacturers and vendors in the Ceramic Fiber market

The report covers key points of the market, including the standards, regulations, and policy changes applied by the government on the industry for the coming years. The report encompasses thorough research carried out by the application of advanced analytical tools such as SWOT analysis and Porter's Five Forces analysis to pinpoint the growth trends and patterns. Factors likely to influence the growth of the market, current trends, opportunities, restraining factors, and business landscape are discussed in-depth in the market study.

About Emergen Research

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyze consumer behavior shifts across demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market.

Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
