Increasing demand for anchoring and fixing solutions from both new building construction as well as old building cladding restoration are driving the growth of the facade anchor systems market. However, the rise in the cost of raw materials may restrain the growth of the facade anchor systems market. Furthermore, the rising investment in construction sector is anticipated to create a market opportunity for the facade anchor systems market during the forecast period.

The record offers an in depth evaluate of the industry consisting of each qualitative and quantitative records. It affords an overview and forecast of the global facade anchor systems marketplace based totally on various segments. It also affords market length and forecast estimates from the yr 2018 to 2028 with appreciate to 5 main regions, specifically; North America, Europe, Asia-Pacific (APAC), Middle East and Africa (MEA) and South & Central America. The facade anchor systems marketplace by using each location is later sub-segmented with the aid of respective countries and segments. The facade anchor systems marketplace document covers the evaluation and forecast of 18 nations globally at the side of the modern trend and opportunities triumphing in the vicinity.

The report analyzes elements affecting the facade anchor systems market from both calls for and deliver facet and similarly evaluates marketplace dynamics affecting the marketplace at some point of the forecast length i.E., drivers, restraints, possibilities, and future fashion. The record additionally provides exhaustive PEST evaluation highlighting elements affecting the facade anchor structures market in those regions.

Company Profiles:

EJOT Holding GmbH and Co. KG, Fischer Group of Companies, Gridworx, Halfen, Heckmann Building Products, Hilti Group, KEIL Befestigungstechnik GmbH, Knight Wall Systems, Monarch Metal, and WireBond

## IMPACT OF COVID-19 ON FACADE ANCHOR SYSTEMS MARKET

The COVID-19 pandemic has burnt a hole in the growth of various business sectors across the world. This has led to tremendous losses across various industries around the globe. To contain the transmission of the novel coronavirus, almost every country across the world imposed a strict lockdown or stay-at-home orders in 2020. Manufacturing units and production facilities were shut, creating a negative impact on the growth of the facade anchor systems market. However, to revive the economy and put it back on track, many countries are relaxing lockdown restrictions and are allowing manufacturing industries to open with limited strength. On the contrary, the government is lifting lockdowns in all the countries, which is projected to positively impact the production and development of facade anchor systems in 2021.
