North America contributed to the highest share, accounting for more than one-third of the healthcare PPE market in 2019, and will maintain its dominance throughout the forecast period. This is owing to the presence of world-class healthcare systems and stringent regulations for the use of proper PPE in healthcare settings. However, Asia-Pacific is expected to grow at the highest CAGR of 13.7% from 2020 to 2027. This is owing to increase in affordability of primary healthcare services and other healthcare infrastructure investments in the region.

#### Major Inclusions-
